

Operational profile

Iduapriem

Iduapriem, a 137km² concession which includes Ajopa South West, is located in the western region of Ghana, some 70km north of the coastal city of Takoradi and about 10km south-west of Gold Fields' Tarkwa mine.

Iduapriem is an open-pit mine with two circuits each comprising two-stage milling – a gravity circuit and a carbon-in-leach (CIL) plant. The gravity circuit recovers about 30% of the gold and the remainder is recovered by the 418ktpm capacity CIL plant.

Iduapriem is one of two AngloGold Ashanti operations in Ghana, and one of five in Africa.
